

LONG LIVE YOUR DEVICES

Qian Automatic Voltage Regulator Baoshan
MODEL QAD-EN1000

Features

They protect the life of your electronics and are ideal for backing up office and computer equipment, as well as being a built-in surge suppressor and extra-protection fuse.

Protection

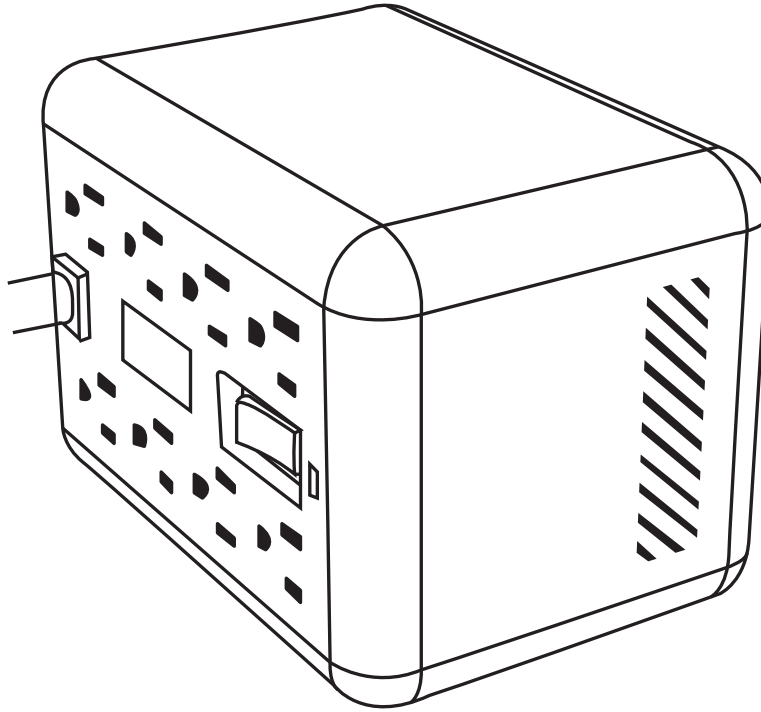

Protection of telephone line against atmospheric discharges. It has an automatic disconnection system, if the voltage rises or falls, it regulates it and if it leaves the regulation range, it disconnects it.

Capacity

It has a capacity of 1000 VA for better care and handling of your electronic devices.

DATA SHEET (EN1000)

Model	EN1000
Capacity	1000 VA
Normal Voltage	120V Alternating Current
Frequency	50Hz / 60Hz
Input Voltage Range	95V-150V Alternating Current
Output Voltage Range	108V-132V Alternating Current
Output Type / Quantity	NEMA5-15R x 8 pcs
2 USB Charging Ports	2.1A Maximum
Power On	Green LED
Boost & Buck	Yellow LED
W*H*D	150 mm x 105 mm x 100 mm

PHYSICAL CHARACTERISTICS

Operating Temperature	0°C ~ 40°C ~ 32°F ~ 104°F
Noise Level	<40dB
Relative Humidity	<95% (No Condensing)

WARRANTY

Warranty	1 Year
EAN-13	7503026359532
