

HIGH PERFORMANCE NETWORK

Niu Cat6 RJ45 Network Plugs Pack
SKU NW6100

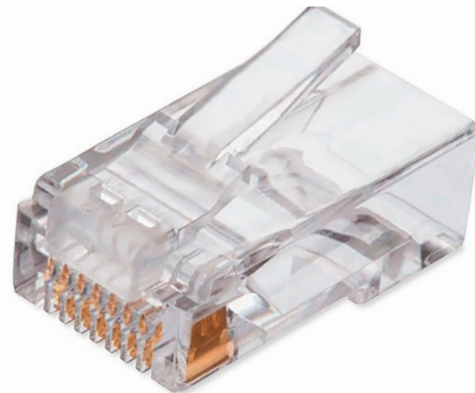

Features

The male connector for twisted UTP or FTP cable pairs has the capability of transmitting up to 1000 Mbps ensuring faster internet speeds.

Case

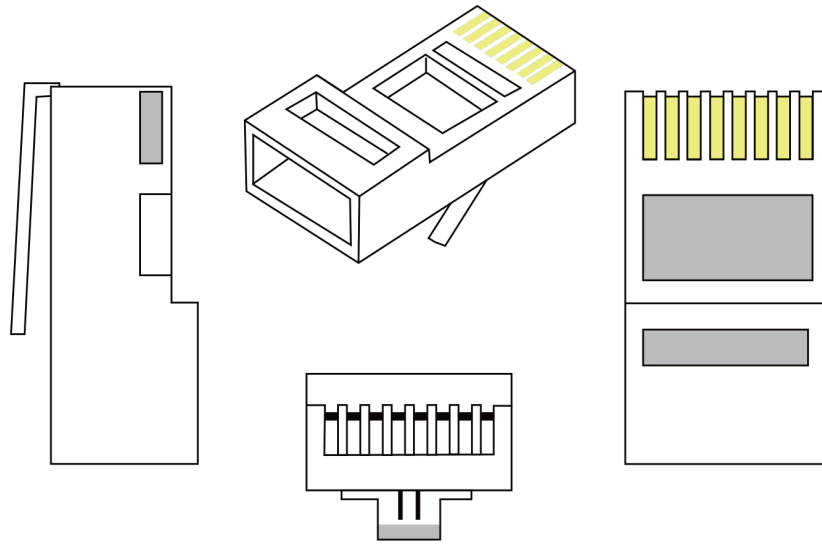

Made of high quality polycarbonate, the RJ45 is a 8 contact connector with 50 micron gold plating.

Material

Made for indoor use, the cable is made from a double-shielded S / FTP and is therefore particularly resistant to interference and noise, in addition to having a flexible link guard protection.
